MT. VERNON'S FAMINE OREGON PACIFIC RECEIVERS.

Town Almost Entirely Dry.

The Wells and Cisterns Will Not Last Twelve Hours.

Lefore Chief Foley and his men could complete their rounds, there were several explosions of boilers and water backs, but happing nobody was injured by them.

At the office of the Water Company his forehood, it was said the break would be repliced so that every book could have water for their appears and wash day would have not be postioned only until to-morrow.

Those who have been to the scene of the press and that it will be two days beinger the simply will be turned on. The work of putting a sleeve over the piper and system the water company has been propped up as well as the postion is untenable, and that the carriers are entitled to extra pay for any over line on any single day.

The rocks have been propped up as well as it is possible to do it, but the men are extremely nervous while at work.

Mayor Edward F. Brush visited the break this morning and on his return went at once to the Water Company's offices, where he had a talk with the officials.

Mayor Edward F. Brush visited the break this morning and on his return went at concess the water Company's offices, where he had a lolk with the officials.

Mayor Brush was evidently not satisfied with what he learned there, for he repaired immediately to the office of corporation tounsel Frank N. Glover and held a long conference could not be oeithitely learned, but Mayor Brush alterwares intimated that his visit was for the perpose of finding out whether or not there was nor clause in the etry's concentration that the city concentration that the city concentration the water company which would warrant the eligible could be used to the control there was nor clause in the city concentration that the city is not their tail, but a conductor of the New York. Now Baven and Bartford Road said 19-day that he had noticed at least the petint where the break occurred for at least three weeks past.

If this is the case it shows negligence on the part of the Water Company and would be legal grounds for breaking the contract.

Nominations Perhaps Held Back Till the Senate is Organized. WASHINGTON, March 13.-No nominations were received by the Senate from the Prezident at to-day's session.

A number had been expected, but it is supposed that they were withheld for the reason that they could not be acted upon until the Senate committees are appoint ed, so that there is no real delay caused by holding them at the White House.

Harry Colton Died from Coma. Coroner Messemer held an inquest to-day denly on Feb. 17, at 225 Spring street. It was reported at the time that the deceased was the victim of foul play, but the testimony given at the inquest showed otherwise, and the jury found that death was due to come from cerebral apoplexy.
